

# ENVIRONMENTAL AND LANDSCAPE REHABILITATION

## Gran Paradiso Area

### ENHANCEMENT OF THE SANT'ORSO MEADOWS

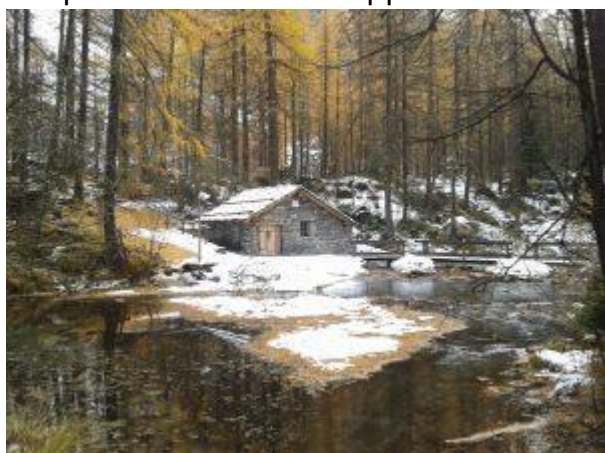

Co-implementing body: The Municipality of Cogne

The project includes the publication of a collection of contents about the Sant'Orso meadow and the realization of a tour pathway divided into legs according to the description of the main aspects of the territory.

### ENHANCEMENT OF THE BIOTOPE OF PRAZ SUPPIÀ

Co-implementing body: Gran Paradiso National Park

The project includes the creation of an educational path aiming at developing the peatland of Praz-Suppià.

### ENHANCEMENT OF THE AREA SURROUNDING LAKE PELLAUD

Co-implementing body: The Municipality of Rhêmes-Notre-Dame

a) Setting up of a "nature path": the project includes the setting up of a "nature path", with display stands and play areas, and the Park's fauna as main theme.

b) Restoration of a building with the aim of turning it into an ecomuseum:

the project also involves the restoration of the building, which used to be a mill and then a hydroelectric power plant, to turn it into an ecomuseum.

## Mont Avic Area

### SETTING UP OF THE CHAMPDEPRAZ MUSEUM

Co-implementing body: The Municipality of Champdepraz

Setting up of the local Champdepraz Museum, to enhance the museum function of the building, which is already used as an exhibition space.

### RENOVATION OF AN OLD MILITARY BUILDING IN COL FENÊTRE

Implementing body: Mont Avic Natural Park

Actions to enforce compliance with safety measures of an old military building located in Col Fenêtre, and the rehabilitation of the site.

### RENOVATION OF AN OLD MILITARY BUILDING IN COL FÉNIS

Implementing body: Mont Avic Natural Park

Actions to enforce compliance with safety measures of an old military building located in Col Fénis, and the rehabilitation of the site.

### ENVIRONMENTAL REHABILITATION NEAR MINING SITES

Implementing body: Mont Avic Natural Park

The works include the installation of information panels in accordance with safety regulations in the areas surrounding mining sites, including the Lac Gelé's one and the stone quarry in Barma.
